

James Steed

Aspiring Student

I have taken multiple coding / computer based classes since 7th grade, including Computer Science Discoveries, AP Computer Science A, and AP Computer Science Principles. I would say I am comfortable with HTML, and might need a little more work on object-oriented programs. I have earned Honor Roll and Principal's Honor Roll every semester of my high school career. I have a 3.9 GPA average through 9th grade to my first semester of 11th grade.

Education

2021 - 2023

- AP Computer Science Principles
- AP Computer Science A

2023 - 2024

- AP Calculus AB

Schools (2021 - 2024)

- Clovis West High School
- Center for Advanced Research & Technology (Web Applications)
- Clovis Community College

Skills

- HTML
- CSS
- JavaScript
- Java

Language

- English

Experience

2022 - 2024

Valley Animal Center | 3934 N Hayston Ave, Fresno, CA 93726

Volunteering

Virtually every Sunday since December of 2022, I have volunteered at Valley Animal Center (VAC). At the adoption center, I usually do odd-jobs, such as sweeping, changing linens, and swapping out water and food. After 3 months, I decided to also volunteer at their feral yard, which is outside. I would volunteer at the adoption center for an hour, then go to the feral yard for 2 hours, since the outside wasn't maintained as much as the inside. As of 2024, VAC is renovating the feral yard and allowing some of the outside cats to be adopted due to the help I have given to keep the feral yard sustained.

2023 - 2024

Clovis West High School | 1070 E Teague Ave, Fresno, CA

E-Sports Club Member

I wanted to join E-Sports club my freshman year of high school, but I didn't have the time in my daily schedule to do so. I then decided my junior year to sign up at my school's "Club Rush". The club meets every Tuesday and Thursday, with Thursdays being our tournament days to play against other schools. We also have extra-curricular activities on some weekends. I have participated in most extra-curricular activities and tournaments held by the school E-Sports club.

2023 - 2024

Center for Advanced Research & Technology | 2555 Clovis Ave, Clovis, CA

Student

During my sophomore year of high school, I was recommended CART since I was excelling in all of my home school classes. I decided to sign up for CART, but it was a lottery system to get in, so everyone had the same chance to get in if they had signed up. I enrolled in the Web Applications Lab since I had prior experience with HTML and CSS. As of 2024 I have outstanding grades in my Lab and the connected English class. Next year I will take the Interactive Game Design Lab to broaden my horizons of Web-based programming and Game-based programming.

Miscellaneous

Hobbies

- Playing Video Games
- Going to the Gym
- Reading

Computer Languages Spoken

- Basic Python
- Basic C#
